[Condition: Anger Management]

"I came for the hypnosis therapy on 1st Aug 2007 because I cannot control my anger and go toilet very often. After 6 sessions, I can control my anger a bit and go toilet less often. Thank you for helping me! I like hypnosis because it allows one to change his or her bad habit."

"Thanks for helping my son. You helped him gain confidence and also helped him discover himself in more ways than one. I see a change in him. He is a happier and lively boy now. He is doing better in his studies as well as in his relationship with his family and in making friendships. Thanks for the wonderful therapies. It works! Keep up the good work!"

"It has been one of my greatest pleasures to meet fellow healthcare workers like you guys. I have come to Hypnae Center as a quick tempered and tiring guy on my first visit. On my 6th and last visit, although I have not fully recovered, I know that there have been signs of improvement in me. As it takes two hands to clap, I believe my recovery will depend on my self determination and efforts from today onwards. Your words will stay in my mind forever. Thank you for the counseling and therapy sessions. God bless."
